The International Association of Amusement Parks and Attractions (IAAPA) awarded the *Mickey and the Magician* show the award for Best Theater Production in the category of Parks with attendance above 3 million visitors.

Walt Disney Studios Park® has brought the *Star Wars™* galaxy to life like never before. Guests to the Disneyland® Park can climb aboard *Star Wars Hyperspace Mountain*, and as part of the Rebel Alliance, blast their way through an intergalactic adventure.

Disneyland Paris is celebrating its 25th Anniversary until September 2018 with unforgettable festivities such as a dazzling new parade and a brand new nighttime show. Thanks to an ambitious renovation plan ongoing since 2014, the resort is more beautiful than ever to celebrate this key moment. The celebration will draw to a close with a spectacular finale befitting of a truly sparkling celebration. The *Festival of Pirates and Princesses* will come to Disneyland Park in the spring, followed by the spectacular *Marvel Summer of Super Heroes* at Walt Disney Studios Park.

CORPORATE CITIZENSHIP

Disneyland Paris is dedicated to acting in an ethical manner, championing the well-being of children and inspiring lasting and positive change in its community. That community support is possibly most visible through the Disney VoluntEARS program, a company-sponsored initiative supporting employee volunteerism. In 2017, 755 Disney VoluntEARS donated 4,322 hours of their time to the community. They took part in over 1,000 different activities, including welcoming children to the parks and hosting activities in partnership with various associations and running awareness-raising events for the environment. The Disney VoluntEARS are also involved in major solidarity events designed to raise awareness and funds for important local and national causes.

THE ENVIRONMENT

Disneyland Paris works towards striking a sustainable balance between protecting the environment and growing its business. Its long-term goal is to set the standard in sustainability for companies in the European leisure and tourism industry.

The resort has set ambitious goals to manage its impact and inspire its guests to help preserve the planet's resources. The cornerstones of this approach are conserving water, energy and ecosystems; reducing waste and greenhouse gas emissions; and inspiring others to take action for the environment.

The resort's commitment to respecting the environment is visible through several initiatives, including celebrating biodiversity and vegetation on-site, such as the bee hives at Disney's Davy Crockett Ranch, and the Dutch Gardens, measuring over 2,000 m², inaugurated in 2017 in front of Disney's Newport Bay Club®. Disneyland Paris is also the first European theme park operator to have its own water treatment station, which produces over 475,500 US gallons of clean recycled water per day, which is used around the resort to water plants, fill decorative pools, and clean roads.

ECONOMIC IMPACT

Disneyland Paris has always sought to have a positive social and economic impact on its community. In 2017, Disneyland Paris and French public authorities presented the results of a study on the social and economic impact and contribution to tourism of Disneyland Paris over its 25 years. The resort has created more than 56,000 direct, indirect and induced jobs. Furthermore, between 1992 and 2017, the destination generated €68 billion for the French economy in added value and €7.1 billion in state revenues. Disneyland Paris represents an impressive economic investment as each euro invested by the state generates €11.4 in private investment.
