When Walt Disney opened Disneyland on July 17, 1955, he said he hoped it would be “a source of joy and inspiration to all the world.” Since then, the Disneyland Resort has welcomed more than 800 million guests, expanding to become an approximately 500-acre, multifaceted, world-class family resort destination, complete with two renowned Disney theme parks, three hotels and the exciting shopping, dining and entertainment area known as Downtown Disney District.

Disneyland introduced the world to an entirely new concept in family entertainment. Today, it continues to use creativity, technology and innovation to bring storytelling to new heights, while fulfilling Walt Disney’s vision that “Disneyland will never be complete as long as there is imagination left in the world.”

COMMUNITY INVOLVEMENT

At the Disneyland Resort, we are committed to honoring the magic and legacy of Disney Parks by operating responsibly, inspiring happiness and making a positive impact. Since 1955, the Resort and its cast members have contributed to our local community in myriad ways including cash and in-kind contributions to local nonprofit organizations, leaders serving on boards and thousands of Disney VoluntEARS hours donated by our cast members.

In 2017, the Disneyland Resort proudly supported our local community with more than \$21 million in cash and in-kind support to local nonprofit organizations. Each year, the Resort fulfills approximately 750 on-property Wishes for children with life-threatening medical conditions, and hosts the largest pediatric 5K walk in the nation, CHOC Walk in the Park, benefiting Children’s Hospital of Orange County. The annual walk raised \$2.3 million in 2017.

In addition to giving children hope, the Disneyland Resort inspires others to make a difference. Over a 10-year period, the Disneyland Resort will award all Anaheim sixth-grade students tickets to visit the Disneyland Resort when they make a positive impact in Anaheim through the Happiest Class on Earth program. The Disneyland Resort Dreamers & Doers program recognizes exemplary Orange County high school students who take action to improve their community, home or school with donations and grants for their schools and nonprofits.

Also in 2017, the Disneyland Resort donated more than 31,000 pounds of food to Second Harvest Food Bank of Orange County, providing more than 26,000 meals to local families in need, while Disney VoluntEARS built two additional KaBOOM! playgrounds in Anaheim, bringing the total number of Disney-sponsored playgrounds in the area to 11.

ECONOMIC IMPACT

For more than 60 years, the Disneyland Resort has been an economic engine for Southern California. An independent study concluded that the Disneyland Resort generates \$5.7 billion annually for the Southern California economy. The study also showed that each year the resort generates more than \$370 million in taxes – including hotel, sales, property and income taxes – for surrounding cities, counties and the state. In addition to its own 30,000-member cast, the resort supports more than 30,000 jobs in Southern California. Between 2005 and 2015, Disneyland Resort grew its workforce by approximately 65%.

THE ENVIRONMENT

The Disneyland Resort has an ongoing commitment to develop and implement environmentally responsible practices to reduce our impact through energy and water conservation, waste minimization and inspiring others to act with the environment in mind.

Nearly all water used at the resort is recycled through Orange County’s Ground Water Replenishment System. In addition, the Resort incorporates water-savvy gardening and uses an on-site weather system to adjust irrigation based on changing weather conditions.

Compressed natural gas (CNG) is used to fuel the parking lot guest trams, Sailing Ship Columbia, rafts to Tom Sawyer Island, Jungle Cruise boats and Main Street, U.S.A. vehicles. In the last 10 years, Disneyland Resort has doubled the amount of waste diverted from landfills, including the 16 million pounds of food scraps processed into animal feed, and the donation and repurposing of gently used shoes, costumes, furniture and decorations.

In 2017, the Disneyland Resort Hotels each earned the environmentalist certification from the California Green Lodging Program, the state’s top rating for travelers seeking green lodging.
